Your interpretation:	Internal	External	Structural	Other (specify)																																	
Your discussion: This looks like a floor which consists of smooth bedrock covered with mud. The bedrock is surrounded on both sides by walls and feature 29315 may be covering part of this feature. Not completely excavated. Nuha believes this feature is the same as feature 29318 (AMN)																																					
Context same as: 29318 - 29400			See contexts:
