Your discussion: Pure sand laid under the earlier north-south mud brick wall (34571). This layer sand suggests that we have only the lowest few centimeters of wall (34571) and it functioned as make-up layer under the wall. We suggest that sand (34593) is the same as or the continuation of sand deposit (33989), which located under the western enclosure wall (33423) and appears

Volume of feature: from trench...

Placement in square:
