Your discussion:																																					
<p>This feature is most likely S. Hassou's marker which is set in the clean sand 29858 and sealed by 29855.</p> <p>It has been <del>also</del> given a cut number but it wasn't excavated (most likely through it does have some sort of cut so put in the cement base)</p> <p>The marker is a circular cement feature rising up towards the middle → top: square hole.</p>

	<b>X</b>		

Your discussion: This is fill of cut 29.876, which could be a continuation N-ward of cut 29.854 - The digging to follow wall along bedrock ledge. 29.876 could be cross-cut by trench 29.854 - around same time.
