Your discussion:																																					
<p>This context is a <b>lime wash (outermost)</b> on 29062, above mud plaster 32965. It is partially preserved; it is not clear if it lipped down to create floor surface, as there is no lime wash observed on top of mud floor 32411 which is the same mud as 32965 on the <b>block</b>.</p>
