Summary \_\_\_\_\_

Opened: To expose south stone face of W18010. and link

Limits (N) stone part of W18010

(S) L18041

(E) mudbrick skin of W9408

(W) debris below W9510

Closed: Reached bottom of mudbrick portion of W9408, collapsed material below 9408 with 18084 into 18085

Matrix: Sandy orange brown mudbrick material with turtar bits, some yellowish fallen mudbrick material

Relations: [18084] is covered and sealed by the mudbrick portion of [W18010]

To the north [18084] reaches the stone portion of W18010

To the south [18084] continues into 18041

To the east [18084] may be cut by the mudbrick portion of W9408

To the west [18084] continues into the debris below W9510

[18084] covers and with W9408 seals 18085 below.

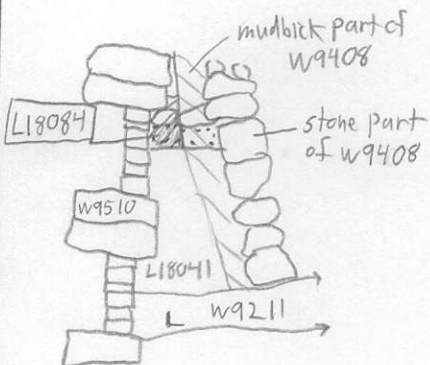

Additional Observations/Value: tiny locus, no major significance

**Locus**  
L 180184
