Summary

Opened: BELOW THE LAST RESURFACING OF F18370 (= L18375, FLOOR MAKE UP), WE OPENED L18390

Limits (N) BALK UNDERNEATH W9400
 (S) W9909, L18394
 (E) L18306, L18393
 (W) BALK BELOW W9065

Closed: L18390 WAS EXCAVATED TO THE BOTTOM LEVEL OF L18306 AND WAS THEN CHANGED TO L18398

Matrix: LIGHT RED COLOURED SOIL WITH SOME SPARSE REMAINS OF FLOOR MATRIX

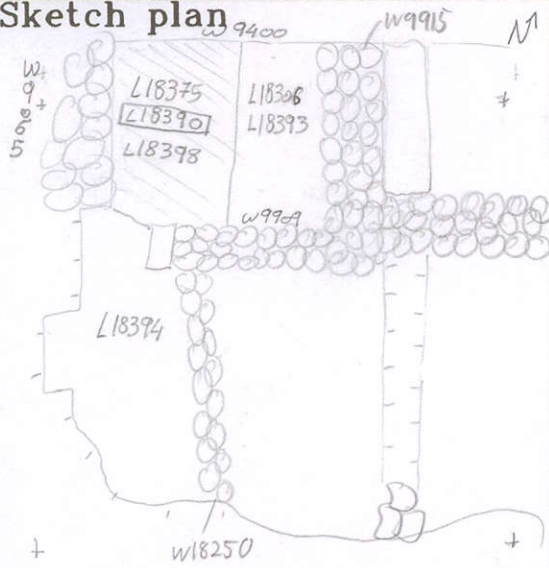

Relations: ABOVE: L18375 (FLOOR MAKE UP) COVERS AND SEALS L18390
 NORTH: L18390 CONTINUES INTO BALK UNDERNEATH W9400
 SOUTH: L18390 REACHES W9909 AND CONTINUES INTO L18394. No floor below L18375 has yet been shown to reach W9909.
 EAST: L18390 CONTINUES INTO L18306 WHICH IS PROBABLY BELOW F18370 AND WAS ONCE COVERED BY IT *
 WEST: L18390 CONTINUES INTO BALK UNDERNEATH W9065
 BELOW: L18390 COVERS BUT DOES NOT SEAL AND CONTINUES INTO L18398

* HOWEVER, IT IS CLEAR THAT LOCI 18375, L18390, L18398, L18409 ARE ALL CUT IN THE EAST BY THE SAME PIT WHICH OVER THE SEVERAL SEASONS RECEIVED LOCUS NUMBER 18306, L18393 AND L18400. L18390 (AND LOT ABOVE AND BELOW) IS THEREFORE SLIGHTLY DISTURBED SINCE NO TWILIGHT ZONES WERE ESTABLISHED

Additional Observations/Value: Medium value, Sealed deposit, but relatively little pottery

Locus
L 18390
