Summary					
Opened: To establish relations between W18515 and superimposed floors of L18512.					
Limits (N) FT 18524					
(S) Bank					
(E) W18515					
(W) L18512 and unexcavated matrix.					
Closed: not excavated this season.					
Matrix: Grey, sandy matrix, with chunks of mudbrick detritus.					
Relations: The superimposed floors in L18512 were cut by FT 18527 for construction of W18515. This sequence creates 2 subphases in phase 10.					
Additional Observations/Value: not excavated.					

Locus

L 18527
