Value p?/4	Remove _____	Photo #(1) _____	Photo #(2) _____	Loci	_____
Written by: NAT	Checked by: _____			below	_____
Unit _____	Phase _____	Stage _____	Stratum _____	PoM _____	
Summary _____					
Opened: when pit was suspected					
Limits (N) L 18558					
(S) W 9989					
(E) W 18045					
(W) L 18558					
Closed: End of Season					
Matrix: grey brown soil, mixed with some MBM (probably from W 18045 + W 9989) and small stones.					
Relations: L 18557 is probably a pit or a cutting feature that cuts: L 18558, F 18551 to the North into W 18045 to the East and into W 9989 to the South					
Additional Observations/Value: a cutting feature (maybe a pit)					

Locus

L 18557
