Summary:

Description:

Reason for opening: continuation of topsoil removal at the level of foundation course L 9085, around and beneath it.

Definition / limits: area of subsurface topsoil defined by the N, E, and S balks, on the SW by paving stone L 9095, and on the west by foundation course L 9085.

Reason for closing: observation of soil color / texture change in N and S sectors of square, demarcated on a line projecting E from mid-eastern face of paving stone L 9085 toward E. balk.

Relation to other elements: Locus 9167 extends to all balks, and it reaches L 9095, but it has been cut by L 9085.

Matrix: Grey brown topsoil material, with few sherds, some bone and glass fragments, one bronze coin, and one (5cm square) lead bullet.

* upper part of L 9167 may reach L 9095 (paving stone), while lower part is cut by L 9085?
