final locus no.	arch. unit / logical area	stage (in sq.)	final STRATUM

Summary:

Description:

Open: Removed W9051

Def & Limits: To N, bordered by L9462. To E, bounded by L9152. To S, bounded by material below W9051 in Square AI 31. To W, bordered by L9465 & L9462.

Matrix: In Northern half, similar to that of L9462 i.e., hard, whitish soil, but more coarse & with larger bits of rubble (ca. 1cm in size). Southern half has more reddish-brown soil, more clay-like & densely packed, and contains double-fist sized cobbles, like L9465.

Closing: Came down upon uniformly hard surface in L9462 that extended into N half of L9495 so closed both.
