---------------------	-----------------	---------------------------	----------------	---------------

**Summary:**

**Description:** opened: When [W9295] was removed, Floor beneath was numbered [L9559].  
 Def/Lim: North By [W9300], East By Bank, South By [L9558], West By [U9140].

**Matrix:** 4 cm thick grey Ash Plaster floor on Rubble Foundation.

**closed:** end of season, not closed.

**Relations:** Wall [W9295] cut through Floor. [F9559] reaches [W9300]. [L9558] reaches stones below Floor. Floor does not quite reach [W9140]. A similar surface extended across [W9200], and appears as surface [L9261] in north, and presumably [F9261] and [9559] are counter parts for walls [9262] and [9295] respectively. Extends into East Bank (W9295 is visible in section)

Both [F9559] and [F9261] reach and/or cover [W9300]; and both have mudbrick walls built at least in part on top of them (= [W9295] and [W9262])
