Summary

Opened: To investigate area below L9106 and define E-part/face of W9051

- Limits (N) W9278 and foundation trench for W9287
 (S) Balk w/ AI32 and L9099
 (E) Foundation trench for W9287, W9096, and fill below L9095
 (W) W9051

Closed: When bottom of W9287 foundation trench was reached to open L9666 and L9665.

Matrix: Loose brown grey fill, quickly becoming dark brown, hard mud brick debris. Similar to foundation trench for W9287. In S-part of locus matrix is looser and more grey. Similar to L9106, though no shell or tructor. Not similar to L9099.

Relations: L9106 covers L9638. L9638 is cut by L9051, W9278, W9096, fill below L9095 and foundation trench for W9287. L9638 reaches balk with AI32. The relationship between L9638 and L9099 remains uncertain because of the balk

Additional Observations/Value: Essentially a cleaning locus to reveal top of mud brick debris.
